## Project handover plan: eBullion

- Project background

### 1.1 Client

#### **eBullion**

#### 1.1.1 Reporting Manager for Client

Neeta Ranjan

### 1.2 Purpose

#### **Financial Advisory Application**

### 1.3 Credentials

user: Do new registration

### 1.4 Work role

My roles and responsibilities included the following:

- Worked on project upgrade, top based login for bullion app.
- Integrated Profit loss analysis screen for Dashboard page.
- Chart integration in app for daily change in price of metal entities.
  
- Code maintenance and release on appstore and playstore

## Project description

eBullion is an easy-to-use app offering instant 24/7 access to highly secure and precious metal assets sourced only from internationally accredited refiners. The app offers the largest range of precious metal assets (Silver, Platinum, Palladium, and Gold) in quantities tailor-made for any budget and investment needs.

### 2.1 Core workflow

Our mobile app provides you with the ability to instantly OWN any or all of the key precious metals in the world. Our equity market-like settlement mechanism (We deposit metal in advance, You pay in funds) means that we receive your funds only when the independent third-party service operator has received your metal in its vault. Your metals are fully insured by Global insurers with expertise in insuring metals and are subject to regular third- party audits

### 2.2 Architecture

MVVM Architecture

- Work item

Splash Screen, Landing screen, Login/Registration Screen, Dashboard Screen, Profile screen, Buy metal screen, Sell metal screen, SIP screen, Chart screen, wallet screen.

- Project Team

1 member

Handover plan

3.1 Handover timeline

2 week

3.2 Handover method

One to one code explanation and shared all the related documents

Notice

4.1 Cooperation model

*[State the cooperation model of this project, and client's particular requirements or habits.]*

4.2 Frequently Asked Questions

*[List the FAQ and the mistakes that new member will possibly make]*

Account information

5.1 Site

5.2 Source code

Handover to client

- Resources

*[Other related resources, including Understanding document/Proposal/SRS, wireframe URL/file, design screen URL/file, specification]*

- App iTunes/Play Store URL

PlayStore url <https://play.google.com/store/apps/details?id=in.ebullion.app&hl=en&pli=1>

AppStore url <https://apps.apple.com/in/app/ebullion/id1619968412>

Work Status

6.1 Current Status

Project is still going on. My assigned tasks are all completed

6.2 Status project on last day of contract

Project is still going on.
